A Horrible Accident.

The Edenburg Sentinel gives the following account of a terrible accident that occurred recently in Shenandoah county, about five miles west of Eden-

One of the most shocking and horrible accidents that has ever happened in this county occurred about five miles west of this place. A young man 19 years of age, son of Mr. William Miller who lives on Swover's creek, was at the home of Mr. William Foltz, a neigh-bor, and asked Foltz's son, a little boy you? What do you say, then, to our proposition to do your work, not only quicker, but for Miller's face it went off, producing one of the most terrible wounds less money? Nobody could that any person could conceive of. The do it better. There is nothing lower part of the face, from below the nose, was almost literally swept away. The upper and lower lips were torn off, a large hole was made through the roof of the mouth, both jaws were broken and a large opening made on the left of the state of the st side of the face large enough to put the fist through.

Drs. Hoffman and Belew were called to see him and dressed the wound, and he is doing as well as could be expected under the circumstances. This is the same young man who accidentally killed a friend (Hottel) a little more than a year ago. He was in the act of handing him a loaded gun when it was discharged, the contents lodging in the bowels of his friend, causing death in a few hours.

A BIG METEOR.-A meteor as large as a man, with every inch of its surface as intensely white as an electric light, as intensely white as an electric light, and are buying leading Proprietory Articles, and a tail of fire lifty feet long, was the action of the steamer Es. We are therefore enabled to supply the trade seen by the officers of the steamer Essex, of the Weems Line, which arrived at Baltimore Tuesday. When the boat was off Poplar Island, at 8:30 o'clock Sunday night, the moon and stars were out, and the bay was as calm as a pond, Mate Rollins was in the pilot-house, and Engineer Young was standing at the gangway. Suddenly, a light, like a liash of lightning, appeared above the Eastern Shore, and the two officers were blinded for an instant. It illuminated the heavens outlined the shores and silvered the waters. The two gradually regained their sight, and saw that the ball of white light was making the night as bright as day, and shooting directly toward the steamer. The interior of the boat was illuminated as if by electric thinking some boat was throwing its searchlight on the Essex. The glow entered the pilothouse, and lit up its every corner. The meteor still approached the vessel, and seemed about to plunge through its sides. When, apparently, several hundred yards off, it burst like a great sunflower, and dropped a shower of sparks into the bay,

THE "REGENT'S PUNCH."-In "good King George's day" it was one of the boasts of a gentleman that he could drink all night without being laid under the table. One hears a good deal nowadays about "hard drinking" and the constant "wee nippies" that we Americans indulge in between getting out of and the going thereto again, but where is the man who would dare tackle the following mixture every evening? It is the recipe for the "Regent's punch," and it is as interesting

as it is insidious: "Three bottles of champagne, two of Madeira, one of hock, one of curacoa, one quart of brandy, one pint of rum and two bottles of seltzer water, flavored with four pounds of bloom raisins. Seville oranges, lemons, white sugared candy, and diluted with iced green tea

instead of water.' They were giants in those days, surely.—St Louis Post-Dispatch.

OYSTER LAW.-In the State Senate on Tuesday Mr. Wickham introduced two bills in relation to the oyster law. letter. Factory Nos. 13 and 15 north Lee st. Alex-andrea, Va. No charge for delivery in city.

One is to protect the oyster industry, and provides that a true and accurate and provides that a true and accurate survey of the natural oyster beds and rocks be made and maps defining same filed with the papers of the State. The other is to encourage the cultivation and planting of oysters, and allows any person renting one hundred acres of grounds from the State to run and use one or more vessels for the purpose of carrying on his business of planting and dredging oysters, but provides that if such vessels are used in any manner which violates the oyster law the owners shall forfeit them and pay a fine of \$5,000, for which sum a bond shall be

given.
Mr. LeCato introduced a bill to make BARBED FENCING WIRE, BALING TIES | the unlawful dredging of oysters a misdemeanor instead of a felony, as under the present law.

What will do it?

Medical writers claim that the successful remedy for masal catarrh must be non-irritating, easy of application, and one that will reach the remote sores and dicerated success. The history of the efforts to treat exterior is PORKS, fresh stock and prices low.
